W. C. Durham, Attorney - at - Law and Solicitor

been able to do anything, read or write. When it was not raining, the waves came over the deck covering the obstructions to navigation existing in the Tennessee river. I had to sit or stand most of the limited to make a snow of speed back to Camden. He then pressed he is not expected to live. McCauly is not in a much better condition. Thousands of dollars changed hands on the result.

Sible, and was unable to come to the scratch. His skull is fractured, and he is not expected to live. McCauly is not in a much better condition. Thousands of dollars changed hands on the result.

Thousands of dollars changed hands on the subject. With the fatuous enthusiasm common to infer fa Ged has heard my prayer in regard The report of the government ento the Captain. He is not a chris- gineer at the works shows that at tian. So I have talked with him for the Tennessee river improveabout his personal salvation. First ment \$1,797,000 and for its conflu- ant campaign in Congress, which re-

I read the promises in the dear ents, \$5000 for the Hiwassee; for sulted in the election of Mr. Car-Book, and he listened with interest.
He expressed the desire to be a christian, and agreed to pray with me. We have had service on deck every day, and the Lord has certainly been with us on this vessel.

Sometimes the waves and wind propriation to ask. To judge how would be so rough and neisesome this may be, however, comparison sult in bringing into the Democratic fold the great Western States of Illpraying, nor talking; but we rendered praise to the Lord, and He heard us. I asked the Captain the second Sabbath, if I might gather the sailors to study the Sabbath.

Can be made with other appropriation of it. When the necessity arese of the content of its appropriated to the Ohio \$5,455,940; to the Tennessee and tributaries, \$2,
second Sabbath, if I might gather the sailors to study the Sabbath.

Ohio 4½ per cent.; Des Moines rapids, \$4,761,700; to the Tennessee and tributaries, \$2,
of it. When the necessity arese of the content of its the Tennessee of the content of its the the the content of its the content of i

sel covering me from head to foot longer, drains a greater area, is a would keep away from the polls if glorious time teaching them. They appropriations were required, that had a majority of more than 3,000; into it with enthusiasm. Through came aft—that is to the rear of the land and the people along the and in the face of such a fact, all seats, and could not use chairs, as and the development of the country states for the Democracy on the ed and the work of adjusting the the vessel was rolling to one side. is the opposite of poor. The soil, the veriest stuff that dreams are parts of the motor and attaching ed fire. I sit down on the lower side in front except on the mountain sides and made of. of them, on my knees, part of the summits, is rich in textile and food crops, and the mountain plateaus are proving to be unparalleled for I did enjoy it. They were the fruit production. Beneath the sur- a succession of fortunate happen- his friend Barlow and the machinroughest set of men I ever sat before. face are products of immense value ings 7,000 people, who were crewed ist making their final preparations

They seemed interested, and all —coal, iron, zine, copper, lead, marble and building stones, and some promised to join next Sabbath. The promised to join next Sabbath. The same motor for the first time. It connew motor for the first time. It connew motor for the first time. It connext Sabbath they came and were coal and iron in proximity, the Ten-cleaned up, and looked respectable. coal and iron in proximity, the Ten-nessee output costs less than that of a slight blaze, easily extinguised inches long, placed longitudinally So every Sabbath there has been an Pennsylvania, and the manufacture before the firemen arrived, but the about one inch apart. Above them, Pennsylvania, and the manufacture improvement. The Bible House had sent some Testaments on the vessel to be distributed among the sailors. The Captain brought these to me, and I distributed them among the class. They took them, and wonderful enterprises upon the Tennessee, for cheap water communication is an absolute requisite to success. Is all to be baffled and defeated by the work being left unfinished, and the manufacture before the firemen arrived, but the clast date of the truck outside would have created serious alarm within if the bursts of music with which the the show opened had not drowned all the noise in the street. The fire and the two thers, and connected with them by steel necks or ways, was a third cylindrical vessel, three inches in diameter projected, and the two these ways, was a third cylindrical vessel, three inches in diameter projected, and the two these ways, was a third cylindrical vessel, the show opened had not drowned all the noise in the street.
